DECKGEN LAB

PROBE · BUILD

EXPERIMENT

Lab deck

Scratch deck for exercising new deckgen directives before they touch the control.

NOT PART OF THE CONTROL GROUP

FEATURE SECTION

A section with corner marks

Directives land here first

Anything uncertain gets exercised on this deck, and only a capability that clearly improves the control is adopted into it.

NEW DIRECTIVE	LAYOUT FAMILIES

LONG SECTION

Overflow behaviour

A section heading long enough to wrap across two display lines

Body copy long enough that the measured panel height has to grow, which is the case that used to overlap before the height became measured rather than assumed.

CALLOUT

DIVIDER AND CARDS

Rule above the card row

- A divider separates the argument from the metrics.
- It spans only its own column.
